

JOONAS KORAKOSKI

SOFTWARE DEVELOPER

+358504966911
JOONASTJ.KORAKOSKI@GMAIL.COM
JYVÄSKYLÄ, FINLAND

OBJECTIVE

My main objective is to gather experience as a software developer all around the world. My goal is to optimize programs that are already finished and to create new ones. I am willing to learn more every day and I thrive to become the best software developer.

SKILLSET

My main experience consists of programming using Python and its libraries. I also have experience with JavaScript and web development using HTML/CSS. I have also taken introductory courses in Kotlin development using Android Studio. Main IDE that I use is Visual Studio Code. Operating systems that I have expertise in are Windows and Linux. Before attending university, I used to work as a machinist.

STRENGTHS

I am a very outgoing person, and that is one of the things that I consider to be my strength. I enjoy socializing with people, and I can be friends with anyone. I think that I have a good sense of humor, and it is easy to get along with me. I learn things fast and I am eager to learn more things. I consider myself a good problem solver and team worker. I can learn new languages fast and broad scale of different languages are also one of my strengths.

WORK EXPERIENCE

2018–2021	Camtronic OY CNC-machinist Machining and programming.
2022–2022	Suoramarkkinointi Mega OY Telemarketer Sales experience gathered from telemarketing.

EDUCATION

2019-2021	Vocational Qualification in Mechanical Engineering and Production Technology Koulutuskeskus JEDU, Kalajoki Degree as a CNC-machinist
2021-present	Bachelor's degree in information and communications technology Jyväskylä University of Applied Sciences In the middle of studying to become Bachelor in Computer Science

2023-2024	Erasmus+ Exchange program, Computer Science Politechnika Krakowska Two semesters of studies done abroad in Poland at Politechnika Krakowska
2021-present	Bachelor's degree in information and communications technology Jyväskylä University of Applied Sciences In the middle of studying to become Bachelor in Computer Science

LANGUAGES

Native language Finnish, fluent in English, little bit of Polish and Swedish and actively learning Spanish.

HOBBIES

Actively doing gym and practicing computer science during free time. I have also been skateboarding since I was 15, but Finland does not have the best environment for that.

PROJECTS

Database Implementation

- Database implemented that works as a ledging application
- Built using MySQL Workbench

E-Commerce site

- Website developed to be used as a website to sell candles. The project was developed using JavaScript and ReactJS. Live exchange API was used to handle currency exchange in real time.
